

Detailed Kathmandu to Lukla Helicopter Flight Itinerary

Flight Request and Confirmation

Share your preferred travel date, the number of passengers, exact passenger weights, and baggage details with Mountain Helicopters Nepal. Our operations team will verify helicopter availability, weather conditions, airport status, and total payload to ensure the flight can be operated safely. Once everything is confirmed, you will receive your final itinerary, reporting time, meeting point, and baggage allowance, so you can prepare for a smooth and hassle-free journey.

Report at Tribhuvan International Airport

At the airport, please have your passport and approved trekking baggage ready for check-in. Any excess baggage or items not required for your journey can be securely stored at your hotel before departure. In case of your important baggage that should be taken to the destination, we will pick up your baggage on our next flight and provide it to you, but it will incur additional charges

Safety Briefing and Boarding

Boarding procedures include how to board the helicopter, where to stand, how to fasten and unfasten the restraint belt, how to communicate with the crew, and what to do when you hear the crew's instructions.

Helicopter flight from Kathmandu to Lukla

The helicopter is flown east across hills, farmland, and river valleys. Airborne time is normally about 40 to 45 minutes. The actual track and duration may change depending on cloud cover, wind, and air traffic control instructions.

Landing at Tenzing-Hillary Airport

After landing, passengers remain seated until the crew confirms that it is safe to leave. The designated walking route is followed, and baggage is collected under staff guidance.

Guide meeting or trek departure

Upon arrival in Lukla, the group meets at the agreed meeting point, where the guide and support team coordinate the next steps. Trekking permits, porter arrangements, and

plans are confirmed before the trek begins. Travelers are advised to allow a reasonable time buffer in their itinerary in case the helicopter arrives later than scheduled due to weather or operational conditions.
